Wall Street Journal: Firms bet on online gambling

1/14/2002 - 7:11:00 AM

Jan 14, 2002, (Wall Street Journal /FT Information via COMTEX) --A host of firms is developing new gambling technologies, in the hope that online betting will soon become legal in the U.S. Seattle game-developer Littech has been hired by Las Vegas entrepreneur Fabrizio Boccardi to work on a hand-held online gambling product. Interactive Systems Worldwide Inc. is developing a similar device. Each year Congress has debated plans to legalize some aspects of Internet gambling, but the more controversial features have not been passed.
